

SAVE TIME AND MONEY

SPARES STOCKING PROGRAM FOR LONG ROLLING MILLS

Due in large part to the addition of our newest state-of-the-art, 183,000-square-foot manufacturing facility located in Sutton, MA, USA, we are excited to reintroduce our dedicated Spares Stocking Program for Long Rolling Mills.

WHY CHOOSE A STOCKING PROGRAM?

The Primetals Technologies Spares Stocking Program frees up considerable space in your facility, minimizes labor requirements, and allows employees to focus on more important tasks. Locking in bulk pricing on consumable and maintenance spares allows you to better manage your operating costs. Plus, you will always benefit from new design or materials improvements, which are automatically included as your spares are produced.

HOW THE PROGRAM WORKS

Your Primetals Technologies account manager will work with you to create a comprehensive list of your mill's consumable and maintenance spares based on your specific equipment and requirements. Alternatively, you can supply us with a list of your specific spares requirements. Once your list has been reviewed and agreed upon, we will supply you with our best pricing based on the quantity to stock for the agreed upon duration of your stocking program. When you need a spare, simply send a purchase order and we will expedite the delivery of your parts. You will only pay for spares once they are received at your facility.

**100% HASSLE-FREE SPARES
ZERO WORRY**

Our new, state-of-the-art, 183,000-square-foot manufacturing facility in Sutton, Massachusetts, enables us to efficiently produce and stock spares for long rolling mills.

PROGRAM MILESTONES

Month 1-10/initial year	Contracted items will be fully stocked
Month 12/annually	Agreed upon contracted annual purchase quantity to be reached by customer
After Year 2	Contract will be automatically renewed after 2 years

*Contract can be ended anytime with conditions

CONTACT US TODAY
