PRIMETALS TECHNOLOGIES - AN ATTRACTIVE EMPLOYER

PRIMETALS TECHNOLOGIES AN ATTRACTIVE EMPLOYER

” We are a leading provider of engineering, plant engineering, and lifecycle services in the metal industry. The largest steel manufacturers in the world produce steel using our plants. We are at the forefront of innovation and one of the largest software houses in the region. We are simply pursuing our passion.

WHAT YOU CAN EXPECT FROM US?

Find out what our employees say about their journey at Primetals Technologies: Scan the QR code or follow the link to the back page.

WE ARE LOOKING FOR YOU!

We are looking for graduates from universities, polytechnic institutes, and technical colleges with a sense of responsibility and energy, who share our passion for global project management and love to travel.

WHAT WE OFFER

Our world offers technology-loving team players many possibilities: Exciting tasks in an international environment, applied values, and workshops for strengthening our corporate culture. We love what we do, welcome to our world!
